Skills

Frontend: Nextjs, Reactjs, TailwindCSS, React-hook-form, Zod, Framer Motion, Cypress, Storybookjs

Backend: Nodejs, Typescript, Expressjs, GraphQL, Hono, Prisma, Drizzle, Cloudflare, AWS, SQL, MongoDB, Nestjs

Work Experience

Ribara

May 2025 - Present

Lead Fullstack Engineer

Remote

- Spearheaded the development of the learning management platform leveraging Nextjs with Server Actions and MySQL with DrizzleORM for the backend.
- Built a simple storage solution using Honojs for file storage and certificate generation. This helped us save on costs on a separate object storage solution.
- Integrating with their preexisting PHP user management service using NextAuthjs.
- Self hosted the entire project on a VPS using GitHub Actions, Nginx for reverse proxy and pm2

ConvertlyKit

Apr 2025 - May 2025

Fullstack Engineer

Remote

- Built an e-commerce management system with live updates using Nextjs and Convex
- Developed an AI Chat funnel that integrates with Instagram and Whatsapp using their APIs and Gemini
- Developed a Web builder to customize the look of the e-commerce websites in Nextjs
- Implemented Multi-tenant system architecture and custom domains for each user in Nextjs

Careersuitsme

Feb 2025 - Mar 2025

Fullstack Engineer

Remote

- Developed a temperament testing system using Nextjs and Convex
- Integrated with an AI model trained to recommended career paths based on temperament test results
- Added Google Ads using the Google AdSense API

Construction and Properties Ltd

May 2024 - Nov 2024

React Native Mobile Developer

Remote

- Design the application user interface using Figma and tested it with users
- Implemented the designs with React Native and the backend with Supabase
- Ported the entire backend from Supabase to Convex to allow for real time data access

Education

Covenant University

Ota, Nigeria

Bachelors in Electrical Electronics Engineering
(GPA: 4.35)

Sep 2020 - Aug 2025
